

INTRODUCING OUR 2009 – 2010 LOGO & THEME

"Power Forward" is a term used in basketball to describe a key position on the team ... a player who is an effective rebounder, scorer and who can play tough defense ... not unlike the IRO! We have increasing responsibilities and must be both pro-active (a good offensive player) as well as having the capabilities to react quickly to transitions in the game (good defense).

We've just come through a crazy year and we're ready to *power forward*, prepare for the rebound and put ourselves in a position of putting points on the board.

At NIRI Silicon Valley, our goal is to help all of our members play the best game they can.

Click on the logo to see how another team overcame some of its challenges on the court.

See you on the court ... *GO TEAM!*
